

Dentists, Orthodontists and Oral Surgeons say...

Hi Med!

The personal computer program designed to make light work of your practice.

Say HiMed for a user-friendly program that can handle everything from next appointment date to invoice/statements for on-the-spot payment, fee collection and deposit slips for banking. HiMed doesn't just handle the entire administrative/bookkeeping routine for a single or multi-partner practice, it provides an analysis of financial performance. This includes invaluable statistics covering fee totals, dentist totals and other consolidations to help ensure increased efficiency.

Say HiMed for a price that definitely proves you're among friends. It's designed to run on leading brands of personal computers including the outstanding IBM PC.

For everything you would like to know about HiMed, call HiSoft or your nearest friendly HiSoft dealer.

HiSoft™

Understandably better software.
