

General Practitioners, Surgeons and Specialists say...

Hi Med!

The personal computer program designed to make light work of your practice.

Say HiMed for a user-friendly program that can handle everything from the issuing of accounts, to the collection of fees, to the printing of bulk billing forms. HiMed is extremely flexible, catering for a one to ten doctor practice with equal ease. It has the ability to list standard items as required with up to five fees per item. HiMed provides facilities for storing next appointment date, last appointment date, type of health cover, pension code, charge type and fees owing. Invoice/statements can be prepared for on-the-spot payment. Daily deposit slips can be produced for bank lodgement. And a wide variety of invaluable statistics can be generated, including fee totals, doctor totals and many other consolidations to help ensure increased efficiency.

Say HiMed for a price that proves you're definitely among friends. It's designed to run on leading brands of personal computers including the great new IBM PC.

For everything you would like to know about HiMed, call HiSoft or your nearest friendly HiSoft dealer.

HiSoft.TM

Understandably better software.
