## Say "HiSoft." It's the friendliest thing to do.

Say "Hi" to the friendliest range of software in the computer business. Friendly because it's easier to use and provides straightforward workable solutions to your specialised needs. Friendly too because we're currently designing a whole range of software for leading personal computers including the outstandingly successful IBM PC.

Our range of computer software includes HiFinance, HiMed, HiEstate, HiRags and HiTrust. Also available but not covered above is HiAccountant—a public accounting package producing full financial reporting and cash books for each client of an accountant's practice.

Say "HiSoft" for user-friendly software at a price that proves you're definitely among friends. We've got the most advanced

packages for a wide cross-section of professions, all designed to make you more efficient.

Please contact HiSoft for the name of your nearest friendly HiSoft Dealer, and ask for full details including a complete listing of all software programs currently available. We couldn't be more friendly than that.

8-12 Alma Road, St. Kilda, Vic., 3182, Australia.
