

THE AUSTRALIAN

What HiSoft's win in the IBM 'Dealer of the Year' award means to you.

Thanks IBM. It's great to be the first-time winner. And we aim to do it again. But what's more important is what it means to you - the IBM Personal Computer buyer. We didn't sell the most IBM PC's in '83. Rather, we did the best overall job of any IBM PC dealer in the whole of Australia. And that includes software support, training and service (as well as selling a lot of PC's). So whether you're a business corporation, small business or in the professions, you should be coming to HiSoft for all your personal computer needs. After all, IBM gave us the top PC dealer award in Australia.

The IBM Personal Computer is your tool for modern times. Enquire now about our total solution, and the location of your nearest HiSoft representative.
