

# Would Australia's biggest PC Dealer drop you like a hot scone?

Can you imagine the biggest Personal Computer Dealer in the nation dropping you like a hot scone after making a sale?

## No Way!

You just don't become Number One in Australia without an absolute commitment to each and every customer. Before. During. And after the sale is made.

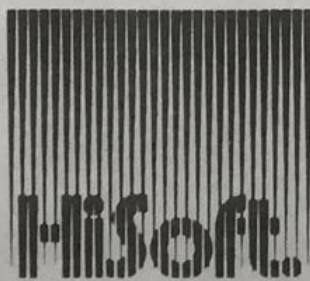

The HiSoft group is well on the way to \$100 million in annual sales. Sales which include Australia's biggest slice of the PC action. Plus rapidly expanding special task software and broad involvement in networking and the revolutionary HiCare Service program.

Being Number One, we only deal in the world's leading brands of Personal Computers. Like IBM. We were first in Australia to ever achieve the IBM Dealer of the Year Award, and right now, we're rewriting the price book on IBM Model 60 and 80. We're even offering a FREE Displaywrite 4/2 or Storyboard Plus with the purchase of the IBM Operating System 2.

So, whatever you need in PCs, from pre-buy advice, network planning, accessories, field support, ongoing service back-up and a hot price, you can have your cake and eat it too just like a host of other Australian companies.

If you deal with HiSoft that is.

We have a way with computers.
